EXPERIENCE

High School Engineering Program (HSEP), Berkeley - *Participant*

Fall 2018

- Learned about the different types of engineering and the careers involved with each field
- Participated in hands-on activities centered around various types of engineering
- Worked on a team bio-engineering project to build a prosthetic hand using 3D printing
- Gained a stronger interest in pursuing STEM careers, primarily the bio-engineering and software engineering field

Alameda Initiative, Alameda - *Site Coordinator and Tutor*

Fall 2017 - PRESENT

- Tutored at Maya Lin Elementary School for almost three years and at Ruby Bridges for one year.
- Worked with over 40 elementary schoolers one-on-one afterschool to improve mathematical skills
- Supervised students' work ethic and clarified any concepts or questions they had about material
- Recruited tutors from ACLC to tutor kids at Ruby Bridges
- Planned and hosted meetings for recruiting purposes

-
- Kept track of community service hours for ACLC tutors
 - Spread awareness of the organization and increased membership across local high schools
 - Strengthened communication and listening skills

ACLC, Alameda - *Student*

Fall 2017- PRESENT

- Took leadership position for team and class projects
- Organized and taught several short classes on occasional days for student-led classes
- Served as the leadership class “Calenderer” in the 2019-2020 school year: kept track of events and worked alongside the class event planner to update calendar and inform PR of upcoming school-wide events
- Currently part of Community Engagement Committee in leadership: responsible for communicating important events and announcements to the whole school, keeping track of events passed in leadership, and creating and executing ways to engage the community outside of school, especially for middle schoolers
- Strengthened organizational and event planning skills

Babysitting, Alameda - *Babysitter*

Fall 2014 - PRESENT

- Took care of younger sibling while parents were away at work or running errands
- Managed household while supervising sibling
- Taught sibling languages, reading and writing, science, and mathematics
- Gained and strengthened leadership, organizational, communication, and conflict resolution skills, and applied them to tutoring at Alameda Initiative
- Currently supervising sibling’s Zoom classes for school and helping with their homework

Girls Who Code Summer Immersion Program, S.F. - *Participant*

Summer 2020 - PRESENT

- Learned HTML, CSS, and Javascript basics
- Created a personal site for portfolio
- Coded various programs using Javascript, including an interactive activist website and personality quiz
- Applied skills to web app development project for the 2020 Congressional App Challenge
